

# IRFAN NURFATHONI PUTRA

## • ABOUT ME

I attended 2 silat martial arts colleges in my junior school and high school, and I also served in the student council at my high school as a member of the spiritual section. Together with members of my group organization, I learned many things, one of which was working together at various events and taking part as a committee member at national events held by my school organization. I am also an expert in serving guests or customers because I have some experience working when I was on holiday in the middle of school
